

As the energy world strives to triple renewables and double energy efficiency, more needs to be done to strengthen energy security and resilience. There is an urgent need to modernise power grids, strengthen regional interconnectivity, enable greater cross-border power trade to optimise resources, and to expand green sustainable financing and carbon markets. More international collaboration, joint investment, and R&D into low-carbon technologies such as hydrogen and geothermal energy are pivotal for accelerating deployment. The global energy community will also need to transition effectively in a just, orderly, and equitable manner which improves the lives of all citizens.

The [17th edition SIEW](#) will bring together energy thought leaders to address these pressing issues to identify growth opportunities, areas for inclusive cooperation, as well as pragmatic actions towards a decarbonised energy future. Key topics include interconnected energy ecosystems, low-carbon technologies, green and transition finance, as well as innovative energy markets.

### SIEW 2023 BY THE NUMBERS:

## SIEW 2024 KEY HIGHLIGHTS

**SIEW SUMMIT** will cover topics including:

-  **LOW CARBON TECHNOLOGY**
-  **INNOVATIVE FINANCING**
-  **REGIONAL INTERCONNECTIVITY**
-  **LOW CARBON ALTERNATIVES**

### SINGAPORE-IEA MINISTERIAL FORUM

Co-hosted by Singapore and the International Energy Agency, the [Forum](#) will discuss the opportunities and challenges on decarbonisation in the Asia Pacific and beyond.

### SINGAPORE-IRENA HIGH-LEVEL FORUM

Under the theme “Energy Transitions: Towards tripling of renewables by 2030”, the [Forum](#) will bring together government leaders and industry stakeholders to unlock and scale pathways in our road to 2030.

# TOP 3 REASONS TO JOIN SIEW

**GAIN INSIGHTS  
FROM GLOBAL LEADERS**

**BUILD CONNECTIONS WITH  
LIKE-MINDED INDIVIDUALS**

**ENGAGING  
DELEGATE EXPERIENCE**

## PARTNER EVENTS

SIEW 2024 will also play host to returning industry events across the energy domains:

MEET WITH THE WORLD'S ENERGY THOUGHT LEADERS  
**REGISTER YOUR INTEREST NOW!**

The Singapore International Energy Week (SIEW) is an official trademarked event organised by the Energy Market Authority of Singapore. It is an annual platform for energy professionals, policymakers and commentators to discuss and share best practices and solutions within the global energy space. The 17th edition of SIEW will be held from 21 – 25 October 2024 in Sands Expo and Convention Centre, Marina Bay Sands (Singapore), where energy thought leaders convene to address the theme “A Connected and Sustainable Energy World”.
